Entering the property from US-87, you will follow a driveway back to the improvements tucked away amongst oak trees. You will come to a split in the road that leads to both cabins on the left and the Farmhouse to the right. The fenceline at the back of the property is shared with a very large ranch. There are plenty of oak trees and nice hill country views.

IMPROVEMENTS: Main House The Farmhouse sits at the back of the property, giving it a nice bit of seclusion. As you enter this charming 2-story home, you are greeted with custom Hickory floors that were cut and hand-scraped onsite. Just inside the front door is a dining area and a large kitchen with granite countertops and stainless-steel appliances. Down the hallway is a spacious bedroom, the only one on the first story. Across the hall, you will find a laundry-half bathroom. The living room is centered around an electric fireplace, making it cozy in the wintertime. At the top of the stairs, there is a small landing used as an office space. Down the hall are the bedrooms, one of which is the

Master. It has many windows for natural light and a walk-in closet. The master shares a Jack & Jill full bathroom with the other second story bedroom. The furniture in the Farmhouse is negotiable. Cabins The cabins are almost identical in build, layout, and design but both have a unique touch. Each bedroom in both cabins is spacious and has its own en-suite full bathroom, consisting of his/hers sinks, a walk-in shower, and a spa bathtub. The furniture in both cabins will convey. There are 3 septs on the property. The house and each cabin have their own. Fenced Paddock A 3.5+/- acre fenced paddock holds goats that the current owners use for their ag-exemption. The livestock are watered from a trough that is fed by one of the water wells. The property is perimeter fenced on the North, East, and West sides. Grain Silo Gazebo Near the cabins sits a grain silo that has been converted into a gazebo for an outdoor lounging area. Concrete Slab Near the southeastern corner of the property there is a 60x40 concrete slab that was poured for a Mueller metal building. WATER: The property has two water wells that supply water to the main improvements. Per the State of Texas Well Report, one water well has a depth of 490 ft, yields 25 GPM, and has an 8" diameter. The second water well has a depth of 500 ft, yields 25+ GPM, and also has an 8" diameter. ELECTRICITY: Electricity is provided by Central Texas Electric Co-op.
